Divorce Solution Mediation Service

Divorce Mediation is an alternative to the traditional costly, and combative litigation process. Through divorce mediation, the mediator meets with the spouses separately and helps them work through all the marital and personal issues such as division of assets, support, and matters concerning the children. Finally, the resolution of all these issues culminates in a mediated agreement, which you have had full control over, and which will affect the years going forward. From there, the Mediator can help you file for an inexpensive joint application for divorce.

Don't try to navigate the complexities of a divorce on your own. Contact us today to schedule a free consultation. We'll help you explore your options, and provide you with the guidance and support you need to move forward.
